ABOUT DANGOTE SUGAR REFINERY PLC

Dangote Sugar is Nigeria's largest producer of household and commercial sugar with 1.44 million tonnes of refining capacity, with the ability to supply most of the country through an extensive network of distributors. Our refinery at Apapa imports raw sugar from Brazil and refines it into white, Vitamin A fortified sugar suitable for household and industrial uses. Our Savannah cane sugar factory located near Numan, in Adamawa State has an installed factory capacity of 50,000 tonnes. Covering 32,000 hectares in extent, the Savannah estate has considerable opportunity for expansion which is underway.

Our strategy is to become a global force in sugar production, working within Nigeria's National Sugar Master Plan to end importation and sell more than 1.5 million metric tonnes of locally produced sugar in Nigeria and neighbouring countries. As part of this plan we acquired Savannah Sugar in December 2012 and are currently improving its farm acreage and upgrading its production facilities. We intend to augment Savannah's 32,000 hectares in Adamawa state by acquiring and planting a further 150,000 hectares across Nigeria, supporting the new plantations with modern production facilities that are located closer to the consumer.

Dangote Sugar Refinery was spun out of Dangote Industries in 2006 and was listed on the Nigerian Stock Exchange in March 2007.
